Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 12, 15, 17-21 and new claims 22-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hirota in view of Middleby of record for reasons of record.

Response to Arguments

Applicant's arguments filed 9/29.08 have been fully considered but they are not persuasive.

With respect to the combination of Hirota and Middleby applicants argue that "a skilled person would not contemplate to incorporate the generator of MIDDLEBY in the water treatment device of HIROTA et al., because, as discussed above, additional power will be required to energize pump, valves etc."

The Middleby patent teaches that one having ordinary skill in the art would have been motivated to use of the blade to generate electricity to run the electrolysis cell. That the Hirota patent would require a further power source to run the other portions of the system is not relevant to the combination or the claims as amended.

Applicants further argue that the blade wheel is not situated where the instant claimed blade wheel is located. The Middleby reference shows the situation of the blade wheel is a similar situation to the claimed and the impeller moves the water through the cell as claimed (see figure 2 and col. 4, lines 34-68).

Accordingly, the claims are rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
